What happens here matters.

Dear OC Risk Management Association,

Thank you for choosing me to receive the OC Risk Management Association Scholarship. In this letter I just wanted to elaborate as to why it means so much to me. I'm a first-year student here at SCC double majoring in Economics and Business. I hope to work in the financial/banking sector. Which made receiving this scholarship extra special. Receiving a scholarship from an organization that does what I hope to one day work in, is an incredible feeling.

An even better feeling was meeting the donor representative, Gary Green. At the SCC scholarship ceremony, I had the pleasure of meeting with Mr. Green and his wife. We discussed my plans for the future regarding university and career. It was an insightful conversation and solidified my desire to one day work in banking. I am grateful to have met and talked to someone who is not only helping me financially but is also working in the industry I aspire to jump into. While I'm not quite sure where I want to transfer to, I am very set on the idea of transferring to a four-year university to continue my educational journey. I plan on taking advantage of the time I have at community college to research what university is best for me. This is critical because the school I choose is the one in which I will dedicate my time and money. Which is why this scholarship is such a big deal to me.

A tumultuous financial situation at home has made it hard for my parents to assist in any costs that await. It is for these reasons why I am so grateful to receive this scholarship. I value education very much, not only because I see it as a path to move up financially, but because it gives me personal gratification to know more about the world around me. I am working hard to make my resume look good so I have no trouble transferring to whichever university I apply to. I have joined ASG, joined a volunteering club, have straight A's in my classes, and took a job on campus. All of this will help me get into university, but the cost still proves itself to be a deterrent, which makes the OC Risk Management Association Scholarship a huge help. It is a step to overcoming the obstacle of university costs. So with that I just wanted to say THANK YOU for this opportunity!

Best,

Daniel Barragan

What happens here matters.

Dear OC Risk Management Association,

I want to thank you for the opportunity you have provided. I feel grateful that I have a chance to earn a scholarship from the Orange County Risk Management Association, I believe that this scholarship will be helpful in my education and my plan of working in the business or marketing field in the future.

As a student who just came to study in America for half a year, it was a big challenge for me to use my second language to study. After taking a few courses, I realized that it isn't easy to learn economics or business. However, I'm not going to give up on reaching my goal. I will focus on my education and keep moving forward. With financial support, I dare to face the challenge; moreover, I am thankful that you trust me that I can do my best for my future. Hence, I am confident to face the problems while learning. It really helps me a lot!!!

As you have read, I have come a long way as a student, and I will continue to work hard towards my goal with your support. I'm Sophia and thank you again for your support, I appreciate it. Hope everything is well.

Best,

Sophia Fang

What happens here matters.

Dear OC Risk Management Association,

I am personally writing to you to thank you for this amazing scholarship. I feel so grateful for the chance to receive this. This means so much to me and my academic future. My name is Kaitlin Murphy I am finishing up my freshman year at Santiago Canyon College. I am a softball player here in Santiago. I am planning on earning a degree in communications with a minor in business. I hope to make it out to the workforce and work in the physical training and athletes world. I am also very passionate about fashion and would love to be able to enter the world of fashion. I plan on using the funds received for this scholarship to be able to spend more time on my academics and focus on my last year at SCC. With this scholarship, I will be able to work and be able to put all my effort into getting good grades and transferring to a four-year university. I want to express to you again how thankful I am for this opportunity to receive this scholarship. By awarding me this you will be helping to set me up for a bright future. I will not take for granted the generosity you have given me.

Best,

Kaitlin Murphy

Dear OC Risk Management Association,

After hearing news that I was awarded this scholarship, I was ecstatic to be able to personally thank OC Risk Management Association for your support in helping me continue my education in Business. Obtaining this scholarship filled me with such joy and being able to personally provide a statement will provide clarity for this opportunity.

Learning about business and economics has helped me develop a better understanding as to how to get started in this field and excel in a way that most don't get the opportunity to do. After this next year I hope to continue my education in a prestigious university to encourage others like myself to continue to develop and devote themselves to learning and growing. This major hasn't just helped me grow into the person I was meant to be, but it has also created a path that has encouraged me to do truly great things after I'm done with my education.

This scholarship will not only relieve financial stress for my family and I but also continue to motivate me with my career goals. With this scholarship I hope to get supplies for next semester and also invest in a new bike to help me get to and from school. This will definitely encourage me and my family to take advantage of the wonderful opportunities offered by the OC Risk Management Association.

Once again I would love to thank the OCRMA for your enormous contributions and support that has helped me tremendously. From today on I will continue to keep a positive outlook for my education future.

Best,

Matthew Mendez
